

AM112 Basicmodul

Wall concealed WC cistern

Application

For walling in and around - wet process
For installing the stand-alone WC or a WC that is firmly embedded in the floor

Features

- Angle valve with the ability to connect to the Mepla piping system
- The construction of the polystyrene insulation simplifies the process of walling-in, prevents condensation forming on the surface of the tank and dampens the vibrations from the tank into the building structure
- Dual flush, independently adjustable with hygienic reserve
- Suitable for installation of remote or sensor flushing
- Compatible with all ALCA flush plates
- The cistern is made of one piece, thus ensuring 100% impermeability
- Water supply from the rear / top
- Maintenance work without using any tools
- The service opening cover simplifies assembly and prevents the penetration of moisture and impurities
- Mounting height 1062 mm
- Installation depth adjustable from 20-95 mm
- Installation depth 125 mm
- Material: polypropylene

Norms

EN 14124, EN 14055
